Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Subject: In the Matter of LightSquared Subsidiary LLC Request for Modification of its
Authority for an Ancillary Terrestrial Component; SAT-MOD-20101118-00239

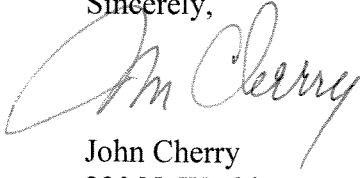

Dear Ms. Dortch:

I am contacting you regarding a company named LightSquared, which is seeking to roll out a new wireless network across the country, including Michigan. During my time as Lt. Governor, our administration was a strong supporter of making high-speed internet an option in all parts of the state. I believe high-speed wireless has become an essential technology for modern-day life, particularly for businesses that want to remain competitive.

I hope you agree that one of our nation's top priorities should be making sure that broadband is accessible by every business, family and individual. And I hope you will support LightSquared's desire to continue to invest in its new network, which will provide competition and choice in the broadband market.

I understand that the Federal Communications Commission has started a process to resolve issues surrounding LightSquared's plans and the GPS industry. Please support this process and work to remove the hurdles standing between LightSquared and its potential national broadband wireless network. Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script, appearing to read "John Cherry".
